# **Default Question Block**

# Provision of Sexuality and Relationships Education (SRE) to Pre-Service and In-Service Teachers

# **PURPOSE OF THIS RESEARCH**

This is an invitation to participate in a study conducted by researchers at Curtin University. The purpose of this research is to evaluate different training opportunities that have been offered, or will be offered to pre-service and in-service teachers. These training opportunities seek to improve the ability of teachers to deliver comprehensive Sexuality and Relationships Education (SRE) in school-based settings.

As a participant of the SRE Professional Development Workshop that was conducted in 2017, you are being asked to complete a short online survey now that the workshop has concluded. Your participation is entirely voluntary. The information will help in the provision of professional development workshops for teachers and school health nurses.

# WHAT DO I HAVE TO DO?

If you click on the link below you will be redirected to an online survey. It will take approximately 10 minutes to complete. The questions relate to your knowledge, attitudes and skills regarding Sexuality and Relationships Education (SRE), and how confident you are in your ability to provide SRE to students. This is not a test. There are no right or wrong answers.

Your involvement in the study is voluntary and your information will remain confidential. You may withdraw your participation from the study at any time, and withdraw any data that you have provided to that point. However, you cannot do this once you have submitted the survey. Refusal to participate in the study, or to miss a question(s) will not affect your relationship with Curtin University or your employer.

#### WHO IS PAYING FOR THIS?

This study is funded by a grant from the Western Australian Department of Health, Communicable Disease Control Directorate.

# **HOW WILL THIS INFORMATION BE USED?**

This research will provide information for future delivery of SRE to pre-service and in-service teachers. Findings from the study will be published in a report to the Western Australian Department of Health. Findings may also be published in peer-reviewed journals, presented at conferences and listed on the Curtin University website or website of the Western Australian Department of Health. Your confidentiality is assured and you will not be identified in any part of the research.

# WHAT ABOUT PRIVACY?

**Strongly Disagree** 

Disagree

Because this is an anonymous study, you will not be identified in anything that arises from the research. Not even the research team will have access to any of your contact information, unless you choose to disclose it. All information you provide will be stored securely and will remain confidential.

# I HAVE QUESTIONS.... WHO CAN I SPEAK TO?

This research is being conducted by a team of researchers at Curtin University. If you have any queries or concerns, please contact Associate Professor Sharyn Burns on 9266 4123 or at <a href="mailto:s.burns@curtin.edu.au">s.burns@curtin.edu.au</a>.

This study has been approved by the Curtin University Human Research Ethics Committee (Approval Number HR91/2014). The Committee is comprised of members of the public, academics, lawyers, doctors and pastoral carers. If needed, verification of approval can be obtained either by writing to the Curtin University Human Research Ethics Committee, c/-Office of Research and Development, Curtin University, GPO Box U1987, Perth, 6845 or by telephoning 9266 9223 or by emailing hrec@curtin.edu.au.

Thank you for your interest in this study.

Provision of Sexuality and Relationships Education (SRE)
to Pre-Service and In-Service Teachers
TEAM LEADER: Associate Professor Sharyn Burns (School of Public Health, Curtin University)
I have been informed of and understand the purpose of this study. I understand that my responses will remain confidential and will be stored securely. I also understand that I can withdraw at any time and/or I can refuse to respond to any question(s) without prejudice. Any information which might potentially identify me will not be used in published material.
○ Yes, I voluntarily consent to participate
○ No, I do not wish to participate
Please read the following statements and, for each one, indicate the most appropriate response for you.
